

INTRODUCING THE NEW VOLVO XC60

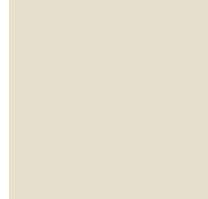

## STYLE LIKE NEVER BEFORE

The new Volvo XC60 is a car that has been designed to make you feel inspired and confident. One where you always feel in control, and where technology is there to support you and make every interaction second nature. Our SUVs are different – beautiful, engaging to drive and full of useful, clever touches. In the XC60, clean Scandinavian design combines with modern luxury to enrich your driving experience, while our Sensus technology makes life less complicated and keeps you connected. And, with the latest Drive-E powertrains, responsive power is balanced by class-leading efficiency.

**INNOVATION LIKE NEVER BEFORE**

At Volvo, every car, technology and design is the result of a clear vision – to put people at the heart of all we do. This inspired us, in 1959, to create the three-point safety belt, a Volvo innovation that is still saving lives nearly 60 years later. And, with our IntelliSafe technology supporting you at all times, we are helping to avoid accidents too. This tradition of innovation continues with the Volvo XC60. This is the evolution of the premium SUV.

ADVENTURE LIKE NEVER BEFORE

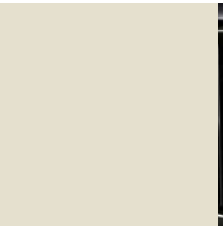

## REFINEMENT LIKE NEVER BEFORE

When we design the interiors of our cars, we apply the same principles you would when designing a living room. High-quality materials, exacting levels of craftsmanship, intelligent use of space and attention to detail work together to create a warm, inviting environment – both for the driver and passengers. Everyone who travels in the XC60 will experience the same levels of comfort, space, light and design. We put as much thought into materials as we do into design. A ribbon of sculpted, solid wood and metal, flowing across the fascia, allows the

materials to speak for themselves. The optional Bowers & Wilkins audio system gives every occupant a superb listening experience. Volvo's intuitive Sensus technology helps keep you connected to your digital world with its centre display with 9-inch touch screen that displays the same interface as your smartphone for selected functions and apps. Getting to your destination is made quicker, easier and safer with our sophisticated navigation, which makes use of the driver display, centre touch screen and optional head-up display.

CHOICE LIKE NEVER BEFORE

Our approach to everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your new XC60 exactly as you want it, we have created a range of options, trim levels and personal expressions.

M O M E N T U M

Already generously equipped, the Momentum trim level provides you with everything you need for inspired travelling.

**Available in T5 AWD and D4 AWD**  
**From \$84,900 + ORC**
